INDEX
RESEARCH MANAGEMENT
VOLUME XV, 1972

Alden, John D.: R&D manpower for the future – the outlook for engineers, Sept p32

Bachman, Paul W.: The value of R&D in relation to company profits, May p58

Basic research, May p8, July p26, Sept p64, Nov p4

Becker, Harold S.: see Gordon

Bright, James R.: Technology forecasting–new tools for an old responsibility, July p50

Bucher, George C. and Reece, John E.: What motivates researchers in times of economic uncertainty?, Jan p19

Budgets, fund allocation, Mar p9, Nov p35

Bujake, John E. Jr.: Ten myths about new product development, Jan p33

Carpenter, Richard A.: Information for decisions in environmental policy, Mar p27

Chisholm, Raymond S.: Patents and licenses – the role and functions of patent departments, Nov p65

Cole, Edward N.: The new priorities for industrial R&D, Jan p12

Communications, Jan p43

Communications technology, July p14, Nov p8

Computer technology, Jan p57

Creativity, Nov p28

Dague, M.F.: see Kovac

Dann, Marshall C.: The proposed new patent law–con, Jan p68

Definitions– industrial research, Sept p55

Education, Mar p11, May p11, Nov p8

Environmental policy and problems, Mar p27, May p4, Sept p39, Nov p7

Exports, technology, Sept p7

Falk, Charles E.: R&D manpower for the future – a comparison of various projections, Sept p13

Fry, Franklin H.: Six differences between long-range and development labs, Sept p64

Funding and support, national, Mar p6, July p9 Nov p5

Fusfeld, Herbert I.: What is the role of basic research in industry?, July p26

Gee, Robert E.: The opportunity criterion–a new approach to the evaluation of R&D, May p64

Goldmark, Peter C.: The new rural society through communications technology, July p14

Gordon, Theodore J. and Becker, Harold S.: The cross-impact matrix approach to technology assessment, July p73

Hillier, James: The R&D manager wears five hats, July p33

Incentives for research: Jan p6, Mar p4, May p7, July p4, Nov p4

Ingersoll, Robert S.: What the corporate executive expects of R&D, Mar p52

Innovation, Sept p6, Nov p14

Inskeep, Gordon C.: Selecting technicians for an industrial research laboratory, Mar p35

Inventions and inventors, Jan p64, Nov p53 Nov p58

Jones, Kenneth A.: Emerging patterns in new venture management, Nov p14

Kovac, F.J. and Dague, M.F.: Forecasting by product life cycle analysis, July p66

Kuntz, Robert J.: The proposed new patent law–pro, Jan p64

Leonard, Edward F.: Applying industrial research methods and computers to medical problems, Jan p57

Maher, Michael P.: see Souder

Management, corporate, Mar p52, Mar p60, Mar p67

Manager characteristics, July p33

Management, corporate, Mar p52, Mar p60, Mar p67

Manager characteristics, July p33

Mansfield, Edwin: R&D's contribution to the economic growth of the nation, May p31
Marcy, Willard: Rewarding inventors in academia, Jan p71; Patents and Licenses – servicing the existing license, Nov p58
Moore, Richard F.: A corporate-wide technology communication system, Jan p43
Multidisciplinary research, Jan p9
Nagpaul, P.S.: A method for reallocating funds to meet a reduced budget Nov p35
New venture management, Nov p14
Patents and licenses, Jan p64, Sept p7, Nov p53, Nov p58, Nov p65
Personnel compensation, Mar p9, May p11
Personnel motivation, Jan p19
Personnel recruiting, Mar p35, Nov p28
Personnel, supply and demand, Mar, p9, May p11, July p8, Sept p8, Sept p13, Sept p24, Sept p32, Nov p9
Product development, Jan p33, Sept p6, Nov p5, Nov p14
Professionalism and societies, July p6
Project management, July p42
Project selection, Sept p44
Proposals and contracts, Jan p47, Nov p43
Putt, William D.: What wins R&D contracts–price or quality?, Jan p47; Reducing the cost of the R&D proposal process, Nov p43
Reece, John E.: see Bucher
Return from research, May p31, May p47, May p58, May p64
Roberts, George A.: The communication imperative between management and R&D, Mar p67
Rubenstein, A.H.: see Souder
Ruckelshaus, William D.: The environment–new challenge for industrial research, Sept p39
Russia-U.S. cooperation, Nov. p7
Science policy, national, Jan p4, Jan p12, Mar p5, Mar p14, May p23, May p13, Sept p4
Seitz, Frederick: The rejection of the SST–reflections on the causes and effects, Mar p14
Shilliff, Karl and Smith, Robert D.: A forecasting method for setting short-range research objectives, Mar p24
Siu, R.G.H.: Arrangement making in a time of stress, May p13
Smith, Robert D.: see Shilliff
Societal problems and research, Jan p8, Mar p46, May p4, July p14, Sept p4
Souder, William E., Maher, Michael P., Rubenstein, A.H.: Two successful experiments in project selection, Sept p44
Staples, Robert: Flowcharting–an aid to project management, July p42
Stever, Guyford H.: New dimensions of research cooperation, May p23
Summer, James A.: Business and research–uneasy strangers in the same house, Mar p60
Taagepera, Rein: The case for a social research laboratory, Mar p46
Taymour, Mohamed E.: The value of R&D in relation to net sales, May p47
Technology assessment: July p73
Technology forecasting: Mar p24, July p50, July p66, July p73
Universities and R&D: Jan p8
Valentas, K.J.: Experiment design–an organized approach to data collection Sept p58
Vetter, Betty M.: R&D manpower for the future – the outlook for scientists, Sept p24
Whiting, Bruce G.: How to predict creativity from biographical data, Nov p28
Wilemon, David L.: See Jones
Young, Vincent E.: Patents and Licenses – invention licensing strategy, Nov p53
